

`initializer< R >`

`field_size`

`fs`

`le_style_initializer< R >`

```
graph BT; A[le_style_initializer< R >] -- solid blue arrow --> B[initializer< R >]; A -.-> C[field_size];
```

The diagram illustrates the relationship between three components. At the bottom is a grey box labeled `le_style_initializer< R >`. A solid blue arrow points from this box to the `initializer< R >` box at the top left. A dashed purple arrow points from the same bottom box to the `field_size` box at the top right. The label `fs` is placed next to the dashed arrow.
